xxxxxxCOMPANY MAINTENANCE CAPABILITY LIST

Date: _____

No.	Part Number	Description	ATA Chapter	Manufacturer	Maintenance Functions	Technical Data	Major Equipment	Remark
	1. Maintenance Organization may develop the Company Capability List according to the above form, but the parts listed in the capability list should not over the item ratings in Maintenance Organization Certificate. 2. The paper for Company Capability List should be A4 or similar size. If too many pages need, please use effective list to control the effectiveness. 3. "No." is the sequence number, parts in Company Capability List should listed in sequence of ATA chapter no. from smaller to larger. 4. If the part with same part number but different tail number use the same technical data and major equipment, it is not necessary to list the tail number. 5. Maintenance Function should be filled in one or more of the following as applicable based on the technical data: "Inspection", "Repair", "Modification" "Overhaul". For the parts without hard time and no technical data for overhaul, "Overhaul" should not be filled in. 6. Technical Data should be the part manufacturer published documents or IACM approved data for the part maintenance work. 7. Major Equipment should be the equipment for critical maintenance process and final test.
